RK Ecran Mosquito Doors are available in four variants. Get ultimate mosquito protection with our classic and premium openable swing doors, stylish pleated and sliding doors. If you have a pet at home, we have you covered with our convenient pet doors.

CLASSIC SWING DOOR

Classic openable swing doors and windows are a benchmark product at RK Ecran. Made with high-grade aluminium profiles and fitted with a high-quality rust and corrosion-resistant mesh, these are ideal fitments for mosquito protection.

Mesh Options:
SS 304 Black (Thickness 0.2 mm & 0.5 mm).

Frames Specification:
Aluminium grade: 6063; Tensile strength: T6
Coating: Powder Coating or Anodising

PREMIUM SWING DOOR

Premium Swing Doors are high-end net screens that are made with a bevelled aluminium profile. The softer edge of this profile makes it look less angular. Premium profiles are sturdier and they come fitted with high grade rust and corrosion resistant mesh options.

Mesh Options:
SS 304 Black (Thickness 0.2 mm & 0.5 mm).

Frames Specification:
Aluminium grade: 6063; Tensile strength : T6
Coating: Powder Coating or Anodising

PLEATED NET DOORS

The Pleated Flex mosquito screens are effective solutions that are most suited for doors & windows. This screen can be effortlessly removed and easily cleaned.

Mesh Options:
Polyester (Black)

Frames Specification:
Aluminium grade: 6063; Tensile strength : T6
Coating: Powder Coating or Anodising

BARRIER-FREE NET DOORS

Pleated Barrier-Free is an aesthetic and effective way to secure doorways and larger openings like balconies and patio entrances from mosquitoes.

Mesh Options:
Polyester (Black)

Frames Specification:
Aluminium grade: 6063; Tensile strength : T6
Coating: Powder Coating or Anodising

RK Ecran Mosquito Windows are available in four variants. Choose ultimate mosquito protection with our classic and premium openable swing windows, stylish pleated and sliding windows. We also have window solutions for hard to net places like bathroom and kitchen vents and vegetable cupboards.

CLASSIC SWING WINDOWS

Classic openable swing windows are a benchmark product at RK Ecran. Made with high-grade aluminium profiles and fitted with a high-quality rust and corrosion-resistant mesh, these are ideal fitments for mosquito protection.

Mesh Options:

SS 304 Black (Thickness 0.2 mm & 0.5 mm).

Frames Specification:

Aluminium grade: 6063

Tensile strength: T6

Coating: Powder Coating or Anodising

PLEATED FLEX WINDOWS

Pleated mosquito screens are effective solutions that are most suited for doors & windows. These screens are stylish, space-saving and easy-to-operate fitments.

Mesh Options:

Polyester (Black)

Frames Specification:

Aluminium grade: 6063

Tensile strength: T6

Coating: Powder Coating or Anodising

PREMIUM SWING WINDOWS

Premium Swing windows are high-end net screens that are made with a bevelled aluminium profile. The softer edge of this profile makes it look less angular. Premium profiles are sturdier and they come fitted with high grade rust and corrosion resistant mesh options.

Mesh Options:

SS 304 Black (Thickness 0.2 mm & 0.5 mm).

Frames Specification:

Aluminium grade: 6063

Tensile strength: T6

Coating: Powder Coating or Anodising

SLIDING WINDOWS

Sliding screens can be fitted in large and small openings. From balcony windows to kitchen and stairway landing windows, they work as an ideal solution where clearance for openable doors isn't available.

Mesh Options:

SS 304 Black (Thickness 0.2 mm & 0.5 mm).

Frames Specification:

Aluminium grade: 6063

Tensile strength: T6

Coating: Powder Coating or Anodising

RK Ecran Balcony mosquito protection solutions are available for small and wide spaces. Choose from sturdy, stylish, ergonomic to sun and uv solutions.

SLIDING DOOR

Sliding screens can be fitted in large and small openings. Sliding solutions are sturdy and are an ideal choice for balcony and patio spaces.

Mesh Options:

SS 304 Black (Thickness 0.2 mm & 0.5 mm).

Frames Specification:

Aluminium grade: 6063; Tensile strength: T6
Coating: Powder Coating or Anodising

INFINITY

Infinity screens are wide format screens that are ideal for large spaces. They are sleek and stylish mosquito fitments for balconies.

Mesh Options:

PVC Coated Fibreglass Mesh (Sun & UV Protection, Mosquito & Insect Protection, Blackout option)

Frames Specification:

Aluminium grade: 6063; Tensile strength : T6
Coating : Powder Coating or Anodising

BARRIER-FREE DOORS

With a slim 5mm base channel, the nearly seamless floor track provides an obstruction-free access between two spaces. This screen can be effortlessly removed and easily cleaned.

Mesh Options:

Polyester (Black)

Frames Specification:

Aluminium grade: 6063; Tensile strength: T6; Coating: Powder Coating or Anodising

PLEATED FLEX

The Pleated Flex mosquito screens are effective solutions that are most suited for doors & windows. This screen can be effortlessly removed and easily cleaned.

Mesh Options:

Polyester (Black)

Frames Specification:

Aluminium grade: 6063; Tensile strength: T6; Coating: Powder Coating or Anodising

MOTORISED SCREENS

Motorised screens are contemporary, stylish and can be opted for mosquito protection, privacy, sun and UV shielding.

Mesh Options:

PVC Coated Fibreglass Mesh (Sun & UV Protection, Mosquito & Insect Protection, Blackout option)

Frames Specification:

Aluminium grade: 6063; Tensile strength: T6; Coating: Powder Coating or Anodising

SWING DOORS

Classic and premium doors are ideal solutions for mosquito protection. They are a sturdy choice for balcony doors.

Mesh Options:

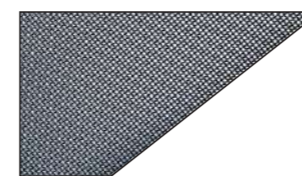

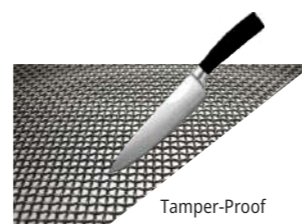

SS 304 Black (Thickness 0.2 mm & 0.5 mm)

Frames Specification:

Aluminium grade: 6063; Tensile strength: T6; Coating: Powder Coating or Anodising

INTRODUCING TOUGH SS MESH SECURITY DOORS

RK Ecran Premium Security Doors are made using a high-grade 304 SS Mesh, the construction is tamper-proof, tear and break-resistant. With unrestricted visibility and airflow, these doors are also insect barriers and fit seamlessly alongside your doors.

What makes us better?

Details to consider while choosing your mosquito net doors and windows.

1,00,000+ Installations

Here's why our customers ❤️ us

Perfect Corners
The corners are perfect and precise, hence the corner lines are hardly visible

Elegant Handle*
Stylish and sunken handle. The ergonomic design ensures it doesn't tangle with the curtains or blinds.
* Available only on wood finish windows

Aluminium Corners
Unlike other brands the corner fittings are made of high grade Aluminium. It makes them strong and durable

Sturdy Adjustable Hinges
The hinges can be adjusted even after installation. They are strong, sturdy and last a lifetime.

Weather Strip
The weather strip completely seals the panel by filling the gaps to give 100% protection.

Easy-to-Remove
The simple procedure to remove and reattach makes cleaning and maintenance easy.
