# ABOUT THE COMPANY

Established in 2006, RK Ecran has opened doors to a new standard in mosquito prevention solutions. RK Ecran spearheaded a revolution in the market introducing swing mosquito doors and windows. Today, with over 30 dealers, the network has grown to become a market leader in the southern states and is slowly gaining strength in the Maharashtra market and other parts of the country. This growth is attributed to stringent quality guidelines and a strong business ethos to produce consistently great products.

SAFETY DIRECTIVE OF  
EUROPEAN UNION

ISO 9001:2015  
CERTIFIED COMPANY

## OUR EDGE

RK Ecran is a name synonymous with quality. Achieving perfection in fit, finish & quality is the motto of the company. This drive to consistently deliver perfection is the reason for a steady growth and increasing reputation.

## STATE-OF-THE-ART MANUFACTURING FACILITY

RK Ecran factory is highly organised and optimised for maximum output. With designated assembly lines, the workforce is equipped to be more productive and the output, unparalleled in perfection.

## OUR GROWTH

RK Ecran is currently available in 5 states through 30+ dealers. With a centralised manufacturing facility in Coimbatore, the company fulfills orders across the country.

## RESEARCH & INNOVATION

12 + products and continuously innovating to offer cutting-edge and trendy solutions.

## DELIVERY TIMELINES

Consistently maintaining stringent delivery timelines and high customer satisfaction with its unparalleled service.

## CLASSIC DOORS & WINDOWS

Classic openable swing doors and windows are a benchmark product at RK Ecran. Made with high-grade aluminium profiles and fitted with a high-quality rust and corrosion-resistant mesh, these are ideal fits for mosquito protection.

### Mesh Options:

SS 304 (Thickness 0.2mm & 0.5mm)

Monthly cleaning recommended

## PREMIUM DOORS & WINDOWS

Premium Swing Doors are high-end net screens that are made with a bevelled aluminium profile. The softer edge of this profile makes it look less angular. Premium profiles are sturdier and they come fitted with high grade rust and corrosion resistant mesh options. They are a stylish fitment option for mosquito protection.

- Stylish bevelled profiles
- Superior quality aluminium profiles
- Corrosion-free SS Mesh
- High quality hinges and handles

### Mesh Options:

SSV (Black), PET Mesh (Grey & Black)

Monthly cleaning recommended

# SLIDING NET

## SLIDING WINDOWS

Sliding screens can be fitted in large and small openings. From balcony windows to kitchen and stairway landing windows, they work as an ideal solution where clearance for openable doors isn't available.

### Suitable For:

Windows and balconies

### Mesh Options:

SS 304 (Thickness 0.2mm & 0.5mm)

Monthly cleaning recommended

## VENTILATOR WINDOWS

At RK Ecran, we provide innovative mosquito net solutions to spaces like bathroom and kitchen ventilators, kitchen cabinets and fruit and vegetable storage units and more.

With multiple products, we provide netting solutions to ensure complete mosquito protection for your home.

### Mesh Options:

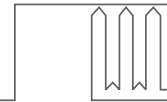

SS 304 (Thickness 0.2mm)

Monthly cleaning recommended

# PLEATED NET

## PLEATED FLEX

The Pleated Flex mosquito screens are effective solutions that are most suited for doors & windows. This screen can be effortlessly removed and easily cleaned.

### Suitable For:

Doors, windows and balconies

### Mesh Options:

Polyester

Weekly cleaning recommended

25mm Base Frame

## PLEATED BARRIER-FREE

Pleated Barrier-Free is an aesthetic and effective way to secure doorways and larger openings like balconies and patio entrances from mosquitoes.

With a 5mm base channel, the nearly seamless floor track provides an obstruction-free access between two spaces. This screen can be effortlessly removed and easily cleaned.

### Suitable For:

Doors and balconies

### Mesh Options:

Polyester

Weekly cleaning recommended

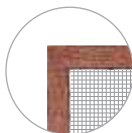

The barrier-free screen has a 5mm strip that provides obstruction-free access between spaces.

# SALIENT FEATURES

## Perfect Corners

The corners are perfect and precise, hence the corner lines are hardly visible.

## Easy-to-Remove

The simple procedure to remove and reattach makes cleaning and maintenance easy.

## Elegant Handle\*

The contemporary sunken handle makes the doors and windows look stylish. The ergonomic design ensures it doesn't tangle with the curtains or blinds.

\* Available only on wood finish windows.

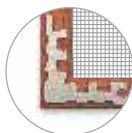

## Weather Strip

The weather strip completely seals the panel by filling the tiniest gaps to give 100% protection.

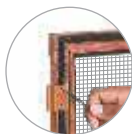

## Aluminium Corners

Unlike other brands the corner fittings are made of high grade Aluminium. It makes them strong and durable.

## Sturdy Adjustable Hinges

The hinges can be adjusted even after installation. They are strong, sturdy and last a lifetime.
